

## ZESTY LIME & COCONUT BALLS

*This recipe is absolutely delicious. The combination of lime and coconut really make this a stand alone nut ball....and so, so easy to make.*

### **Ingredients:**

2 cups almond meal

2 cups desiccated coconut

2 teaspoons lime zest

2 teaspoons vanilla powder

dash of sea salt

Juice of 4 limes

1 ½ cups medjool dates (pitted)

### **Method:**

Mix together all your dry ingredients along with the lime zest in a food processor.

Add the dates one by one whilst blending, then add the lime juice.

Adjust ingredients if you need to for consistency- you want them moist enough to stay together, but not too moist that they cannot hold shape.

Scoop out mix and roll into balls (30grams make a great bite size snack).

### **Inspiration:**

The inspiration is endless when making nut balls. Try mixing up the flavours by using cashew nuts,

walnuts or pecans, and substituting dates for dried apricots or sultanas.
